

Trade Painter?
**Our Helping Hand
Project needs your
helping hand.**

WE'VE GOT YOU COVERED

The Haymes

Helping Hand Project

Brightening the communities and lives,
of our most important asset... **our locals.**

What's happening?

2020 has been a really tough year, but sometimes the tough times also bring out the best in us. So here at Haymes, we decided we wanted to thank all of the communities who have supported our people and our shops, by donating paint to a deserving local business in our community.

Up to three finalists will be chosen by your local Haymes Paint Shop from community nominations and the winner will be decided by locals casting their vote.

What do we need?

Haymes will supply all the paint, but we are looking for some volunteer trade painters to put it on and make it look sensational. You must be available for 2-5 days on a nominated date between April-June 2021 and hold relevant insurances.

What you'll get

In return, we will supply you with Haymes work gear and promotion across all of our digital channels, which includes social media, a dedicated volunteer painter webpage on the Haymes Paint Shop website, and a mention in any local media coverage we get.

As a volunteer painter, you'll also go into the draw to win a Qtech QT290 Electric Airless Paint Sprayer valued at \$3590 inc GST.

We know you'll like that, but we also know that won't be the reason you're doing it.

PARTNERING WITH THE BEST
